Media Release

RSWM and Adani Energy Solutions join hands for sustainable future

- AESL to supply 60 MW of green energy to RSWM's multiple plant locations
- RSWM invests ₹60 crore under Group Captive Scheme with a renewable genco
- Project to supply 31.53 crore green units annually, enabling RSWM to source 70% of its total energy from renewable sources

New Delhi/ Ahmedabad, 5th November, 2025: RSWM Ltd, one of India's leading textile manufacturers and the flagship company of LNJ Bhilwara Group, has signed an agreement with Adani Energy Solutions Ltd. (AESL), for supply of 60 MW of Renewable Energy, marking a key milestone in its sustainability journey.

Under the agreement, AESL will manage the entire green power value chain for the additional power requirement of RSWM Ltd. Towards this, RSWM invested ₹60 crore under the Group Captive Scheme with a renewable genco for the supply of 31.53 crore units of green power per annum to its manufacturing facilities across Rajasthan. With this addition, the contribution of renewable energy in RSWM's total energy requirement will rise from the current 33% to 70% in the near future (two thirds of its total energy mix).

"This achievement underscores our long-term vision to align growth with sustainability and reinforce our position as a forward-looking industrial leader. By sourcing 70% of our total energy requirement from renewable sources—well above the national average of India's clean energy mix i.e. 31% - RSWM continues to set industry benchmarks in responsible energy transition," said **Mr. Riju Jhunjunwala, Chairman, Managing Director and CEO, RSWM Ltd.**

"We are delighted to partner with RSWM on this landmark initiative that demonstrates how sustainability is becoming integral to businesses. This collaboration is a testament to the scalability and impact of renewable power in strengthening industrial growth while ensuring sustainability. As a leading energy solutions provider for the Commercial & Industrial (C&I) sector, we feel privileged to play a catalytic role in helping industries decarbonize through our innovative offerings," said **Mr. Kandarp Patel, CEO, Adani Energy Solutions Ltd.**

"With an equity investment of ₹60 crores, it's a milestone in our sustainability journey, aligning with global clean energy benchmarks and emphasizing our commitment towards the noble cause. By integrating hybrid power, RSWM is not only reducing its carbon footprint but also enhancing long-term energy security and operational efficiency," said **Mr. Rajeev Gupta, Joint Managing Director, RSWM Ltd.**

RSWM's sharp focus on embedding sustainability into every strand of its operations, through renewable energy, circular material flows, or responsible water use has made it a future-ready textile leader that contributes to a regenerative and resilient economy.

AESL's C&I vertical serves bulk electricity users with customized energy solutions. By delivering reliable, competitively priced, and increasingly green power, AESL helps businesses across sectors meet both operational and sustainability needs. The company is targeting a C&I portfolio of 7,000 MW over the next five years.

About RSWM Limited

RSWM Limited, the flagship company of LNJ Bhilwara Group, is one of the leading manufacturers and exporters of synthetic, cotton and blended yarns, melange yarns, knitted & denim fabric in India. About Adani Energy Solutions Limited (AESL):

AESL, part of the Adani portfolio, is a multidimensional organization with presence in various facets of the energy domain, namely power transmission, distribution, smart metering, and cooling solutions. AESL is the country's largest private transmission company, with a presence across 16 states of India and a cumulative transmission network of 26,705 ckm and 97,236 MVA transformation capacity. In its distribution business, AESL serves more than 12 million consumers in metropolitan Mumbai and the industrial hub of Mundra SEZ. AESL is ramping up its smart metering business and is on course to become India's leading smart metering integrator with an order book of over 22.8 million meters. AESL, with its integrated offering through the expansion of its distribution network through parallel licenses and competitive and tailored retail solutions, including a significant share of green power, is revolutionizing the way energy is delivered to the end consumer. AESL is a catalyst for transforming the energy landscape in the most reliable, affordable, and sustainable way.
