**KNITS FABRIC COLLECTION  
FOR SPRING SUMMER 2025**

Inspired by the diverse landscapes of our planet, Join us on an expedition to explore and witness a breathtaking array of colors and formations in these exceptional environments.

# KNITSCAPE

SS 2025

Discover the world's diverse landscapes on a journey to explore the natural beauty of our planet. Our color palette has been inspired by the vibrant dunes of sand-covered deserts, where the sun casts golden hues on the shifting sands and the night sky reveals a myriad of stars. The cosmic space, where the dark void is filled with dazzling planets, comets, and galaxies.

The lush floral landscapes in the early spring, where the earth awakens from its winter slumber and bursts into a riot of colors and fragrances. And even the striking teal and grey tones of Mediterranean beaches at dusk in the balmy summer evenings, where the waves gently lap the shore and the horizon glows with the last rays of the sun.

Whether you want to create a serene painting, a lively poem, a cozy outfit, or a soothing melody, you will find the perfect shades and tones to match your mood and vision. Let your imagination soar and your creativity flourish with our landscape-inspired color palette.

# CONSUMER TRENDS

## Metamorphosis

This trend is all about continuous self-invention and fluidity of identity expressed through fashion. It is about embracing change and letting its transformational power help us grow.

## Hyper Nostalgia

This trend captures the comfort and familiarity found in revisiting past trends with a modern twist. With nostalgia, it's all about bringing back the magic of old times.

## DIY Renaissance

Customization is back, and self-expression through crafting and upcycling is trending up as sustainability takes the front seat. By transforming old or unused materials into new and unique products, we can save the planet.

## Material Transparency

Consumers are demanding brands to be transparent about sourcing and production practices. Ethical policies and fair trade practices are traits to emphasize in this era.
