Yarn offerings for
Home Textile

Introduction

The world has gone through an unprecedented transition in the last few quarters. At RSWM, we have been receptive to the changes and shifts in mood of the people. As a result, we came up with a new approach that led us to some new concepts in the world of home furnishing. And it opened a doorway to new perspectives too!

Let's redefine the essence of
the modern home

Our modern homes are no less than futuristic renditions of old castles that were jewels of the past. Let's give our homes that honour and give things a new touch! Explore our offerings in the following segments -

Beddings

Throws

Cushions and couch

Curtains

Kitchen textiles

Beddings

Every home deserves a cozy bedroom. For thousands of people, a comfortable bed decides how their days are going to be. Hence, it's highly necessary that we pay close attention to what really goes into making those beddings.

At RSWM, we have a wide variety of products that offer everything from soft-hand feel to hypoallergenic traits, while keeping sustainability in mind and much more.

Viscose + Modal + BCI Cotton

- When the elasticity and silkiness of modal is blended with cotton and viscose, it, we get a product extremely suitable for comfortable bedding.

60% BCI Cotton + 40% Polyester

- Pure cotton with the traits of comfort and smoothness, blended with polyester to add a dash of resistance and durability to enable products to withstand the wear and tear of time and heavy usage.

65% Polyester + 35% BCI Cotton

- A strong, crisp and reliable blend suitable for products that move homes through the years. This offering adds years to a product.

100% BCI Cotton

- Cotton is an exceptional insulator and that's exactly what's needed in a comfortable home. With this product, sound sleeps are guaranteed.

80% BCI Cotton + 20% Naia™

- Naia™ has an excellent track record of producing eco-friendly and easy to care fibres. Blending these with cotton make for a fine product that is extremely soft, sustainable and quick-drying too!

80% BCI Cotton + 20% Seacell™

- SeaCell™ fibres retain the nutrients of seaweed in them, which makes the blends made with them soft and supple on the skin. This product is supremely suitable for those with sensitive skin types and offers a feeling of rejuvenation.

Throws

A throw isn't just a throw-away when it's about building that supremely comfortable living room. It's something that can make an afternoon nap a true bliss and be one's best friend on a breezy morning.

We have some exceptional offerings for throws that range from providing pure strength and resilience, to qualities of hygiene maintenance, coziness, warmth, softness and much more.

Acrylic + BCI Cotton

- With the softness of cotton blended with the resilience of acrylic, we get a product that offers both durability, warmth and smoothness.

Amicor™ + BCI Cotton

- Combining the anti-microbial traits of Amicor™ with cotton is a boon for home hygiene. Not only is it a gentle and soft product, but it makes for healthy interior too.

100% Acrylic

- When it comes to throws, you're better to avoid wrinkling or shrinkage, which is exactly what acrylic is best for. Making products warm and durable, this offering is the way to go!

65% Recycled Polyester + 35% Acrylic

- We combined two strong fibres to create a product that marries the strength of polyester with the warm properties of acrylic. It resists wrinkles, shrinking, oils and chemicals while staying durable.

Cushions and couch

If a dog is man's best friend, then the couch is a close second. A good set of couch and cushions can redefine those movie nights, those evening coffees and so much more.

At RSWM, we have lined up blends that are just right for these products.

BCI Cotton + Recycled Polyester

- A couch is nothing if not soft and smooth, but it needs to be durable too. For that very purpose, we blended the soft cotton fibres with the strong polyester ones to create a product that's just right for that living room couch.

BCI Cotton + Linen

- With the breathability of linen and the soft hand feel of cotton, this is a fine product for those lightweight cushions that feel like clouds under one's head. The same blends are available with hemp and jute as well.

100% Recycled Polyester

- It's always great to minimize one's carbon footprint. And that's exactly what we do with this product that's made by upcycling post-consumer polyester into one that's a close cousin of virgin polyester.

Curtains

They're not just drapes for your windows, curtains are the guardians that protect your room and everything in it from anything that could cause harm from the outside like sunrays and dust.

Our offerings for curtains streamline the exact need to make your drapes more suitable for the perfect home.

100% BCI Cotton

- BCI Cotton reduces the environmental impact of cotton production in a significant manner. While improving the conditions of people in cotton production, it also ensures credibility and sustainability while maintaining warm, comfort and coziness in the product.

100% Recycled Polyester

- It's always great to minimize one's carbon footprint. And that's exactly what we do with this product that's made by recycling post-consumer polyester into one that's a close cousin of virgin polyester.

Polyester + Recycled Cotton

- Taking the sustainable route, we blended recycled cotton with polyester so it remains true to its cotton origins while gaining an extra dose of polyester-strength.

Polyester + Hemp

- Hemp is great if you want those UV rays to be less harmful. By blending this fibre with polyester, we make sure the product stays durable over time as it keeps offering its multitude of benefits like being anti-microbial, sustainable and soft.

Polyester + BCI Cotton

- Who says a curtain can't be soft! Blending in the strength of polyester with the softness of cotton, we get a product that's elegant in look, superior in feel and yet affordable too.

Kitchen textiles

Kitchen - it's where the magic happens! So why must we shy away from giving it anything but the best in textiles?

For kitchen textiles, we've got products that are straightforward and thoughtful.

Recycled Polyester + BCI Cotton

- Kitchen textiles deserve durability. We came up with a sustainable solution for that by creating a product that was sustainable, strong yet soft too! It's a dream come true for kitchen cloths and other accessories.

100% BCI Cotton

- From table cloths to microwave gloves and from aprons to chef hats, a pure cotton blend is a prime choice. It's one fibre you wouldn't have to worry about toxicity with, while it stays true to its hypoallergenic and soft origins.
