

A NEW LINE
OF KNITTED
FABRICS FROM
RSWM LTD.

RSWM Limited

an LNJ Bhilwara Group Company

RSWM Ltd., the flagship company of LNJ Bhilwara Group, is one of the largest textile manufacturers in India and exports to over 78 countries around the world. Its 10 manufacturing plants, with 505,000 spindles and 176 looms, produce high-quality cotton, melange, synthetic and novelty yarns, along with suiting and denim fabrics.

LNJ KNITS - A VISION

At RSWM, we realized that well knitted fabrics are the answer to our modern day lifestyle as they come with a promise of comfort, weightlessness, wrinkle-resistance and a multitude of properties built in especially for the world we thrive in. In a fast paced world, it is of prime importance to wear something of ease.

With a robust establishment fueled by immense creativity, LNJ Knits offers a dynamic product range that comprises of knitted fabrics like Single Jersey, Interlock, Rib, Fleece, Flat Back Rib, Terry, Foma, Honey Comb, Pique, Waffel and many more.

WHAT SETS US **APART**

After being the leading supplier of high-quality yarn to the world, RSWM Limited has ventured into producing circular knitted fabrics that boast of a multitude of advantages.

DYNAMIC PRODUCT RANGE

FUTURE FABRICS

CORIZON® TECHNOLOGY

INNOVATIVE PRODUCT STRUCTURE

As the world moves towards an era of sustainability, our lineup also incorporates new blends that are eco-friendly and offer the best consumer experience too. In its first phase, LNJ Knits offers a manufacturing capacity of 5,200 tonnes per annum.

1050 KILOLITRES OF WATER
SAVED EVERYDAY

9,20,000 TONNES OF CO₂
EMISSIONS REDUCED ANNUALLY

30 TONNES OF FABRIC RECYCLED
PER MONTH THROUGH GARNETTING

120 TONNES OF FIBREGREEN®,
OUR CERTIFIED RECYCLED POLYESTER
FIBRE MADE WITH WASTE PET BOTTLES,
EVERY DAY

SUSTAINABILITY A NON NEGOTIABLE APPROACH

As businesses over the world realise the magnitude of responsibility they carry towards our planet, we're moving towards an era of authentic sustainability.

With practices like zero effluent and chemical discharge, worn fabric garnetting and an iron-clad sustainability policy, LNJ Knits aims to redefine fabrics that aren't just top-notch in quality, but are a responsible choice for the self-aware consumer of this new era.

THE LNJ KNITS ADVANTAGE

Our unit consists of 27 circular knit machines for polyester and nylon, along with 20 machines for cotton and its varied blends.

We are also equipped to create very high stretch synthetic fabrics with spandex up to 25 % that offer incomparable advantages to active wear.

ACCLAIMED **TECHNOLOGY**

Thanks to superior circular knitting machines from renowned institutions such as Pailung, Fukuhara, Terrot, Unitex and flat knitting ones from Kauo Heng, our in-house textile engineers are enabled to craft products that rival the best in the world.

These machines ensure precision and quality control to deliver the finest results at every step. These power packed units are complemented by dyeing vessels from AKM Taiwan and Fongs along with finishing apparatuses from Bianco, EHWA, MONFORTS, Sintec, Zushaunag and Mario Crosta.

CIRCULAR KNITTING MACHINE FROM PAILUNG

TOPKNIT® KNITTING MACHINE

FLAT KNITTING MACHINE FROM KAUO HENG

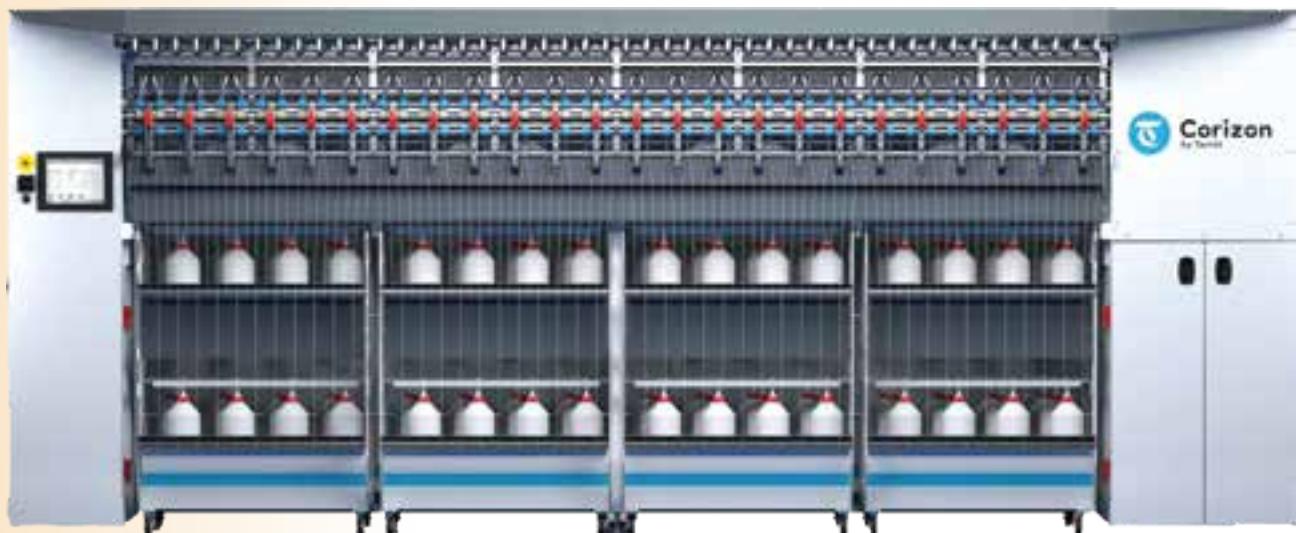

We are making future fabrics available today with **Corizon®**, which offers a groundbreaking technology for reaching new horizons in our industry.

THE CORIZON® EDGE

Corizon® offers an advanced fusion of fiber and filament which becomes a gateway towards efficient and state of the art fabric production. This technology empowers textile manufacturers and designers to create fabrics with remarkable features such as soft touch, great brilliance and even the strength to protect.

VALUE ADDITIONS

Our prowess isn't limited to blends and machines, but a myriad of value-additions that make our products stand out.

LNJ Knits is proficient in special and functional finishes that render nano, brushing, wicking, anti-microbial, UV protection, anti-odour, fire retardant and anti-static abilities onto a fabric.

VALUE ADDITIONS

In an era where diseases and viruses run rampant, anti-microbial blends can make the difference between good health and bad.

Fire-retardant and anti-static properties in a fabric have provided much needed safety to industrial workers and fire-fighters for years.
